

Once in the STi[®] Desktop.

You are now in the STi[®] Desktop and you can get help by moving your mouse pointer over the Help heading as shown in the picture below.

A guide as to the logical steps for the inauguration of the STi[®] system is laid out below with where to see the appropriate help information. Prior to entering any information please read the help associated with the following items first. You can access this help by following these instructions:-

Once you install STi[®] and start the program go to Help then Contents, then Contents again in the STi help.

Double click on the 1st steps Book to open it and then double click on Getting Started. Click on each of the green titles in turn to get a basic knowledge on how to use STi[®].

1. Contents - STi[®] desktop - Desktop Instruction
2. Concepts - Help - Guides - all items with “**concept**” mentioned.
3. Act types - Help - Contents - How Do I - Acts - Add a new act type
4. Venue types - Help - Contents - How Do I - Venues - Add a new Venue type
5. Enter a user - Help - Contents - How Do I - Security - Adding an STi[®] User.
6. Position toolbars to suit - Help - The Desktop - Desktop Instructions.
7. Choose Wallpaper - Help - The Desktop - Desktop Instructions.
8. Enter Some new agents. - Help - Contents - How Do I - Add a new agent.
9. Enter some new clients.- Help - Contents - How Do I - Add a new client.
10. Enter some new venues.- Help - Contents - How Do I - Add a new venue
11. Enter some new acts.- Help - Contents - How Do I - Add a new act.

Please remember if you are using a demo version of STi[®] then you will not be able to use the full functionality of the system.

Once you purchase the STi[®] system we will integrate your logo and addresses into the ever increasing selection of available STi[®] reports.

Installing from the CD.

Place the STi[®] CD in your CD ROM drive with the picture to the top.

Double click “My Computer” Double click your CD ROM Drive, double click the “Utils” Folder and install the following:-

In the MDAC folder double click and install **mdac_typ**.

In the Jet SP3 folder double click and install **Jet35SP3**.

Click the Back button until you are at the root of the CD drive again and double click the “Install” Folder and double click the **setup** program icon.

This starts the STi[®] install wizard as shown below.

Follow the on screen prompts until installation is completed.

NB

If your operating system is prior to Windows XP and you are asked to replace any files with newer versions, answer “no to all” or “keep all” to maintain the correct versions for older operating systems.

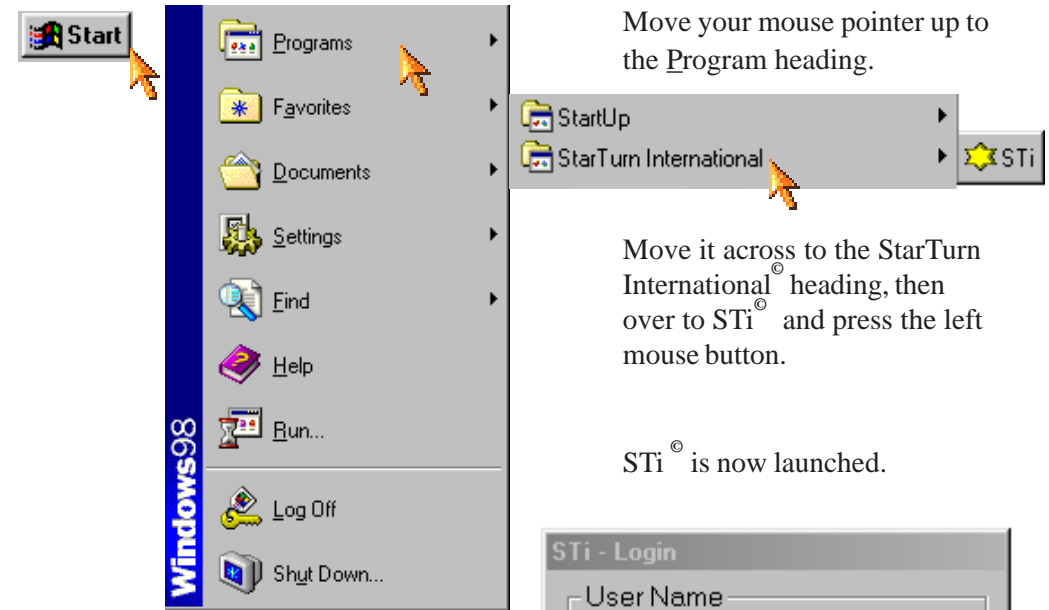

Should you require any help please telephone us on 0113 2642694.

Please note:

Never under any circumstances delete STi[®]. Uninstall STi[®] using the Control Panel Add/Remove Programs icon.

Getting Started.

Move your mouse pointer over the Start button and press the left mouse button.

Move your mouse pointer up to the Program heading.

Move it across to the StarTurn International[®] heading, then over to STi[®] and press the left mouse button.

STi[®] is now launched.

The next step is to log onto the STi[®] system.

The first time you do this you must accept Supervisor as the User Name and enter a password to get in as Supervisor. Initially you will need to verify your password.
